A total of 108,000 safeguarding referrals were reported by vulnerable adults in 2011/2012. The responsibilities of care workers involved in protecting the health, well-being and human rights of individuals are far-reaching. Allowing individuals to live free from harm, abuse and neglect can often mean involving health agencies, government departments or the police. Understanding the fundamentals of safeguarding is essential for anyone working in adult health and social care.
